90. HumanM@ObjectGripShoulder02_R

The dance steps animations are timed to fit 120 BPM music. This makes it easy to adjust the playback speed to match other tempos (for example, using a speed multiplier of 0.75 would sync the dance animations with a music of 90 BPM).

Animation files start with the prefix **HumanF** or **HumanM**, depending on whether they are for the **feminine** or **masculine** rig. Some of them may be shared with other animation packs.
